“Onyx”

Hosiery

“ONYX” Merit would assert itself if never advertised—but we would do an injustice to the public if “ONYX” virtues were permitted to remain unheralded.

Not only for Men and Women but for Children as well, every want can be found in the “ONYX” Brand.

The greatest improvements shown in fifteen years and only to be found in the “ONYX” Brand are

The new

“DUB-L TOP”

not merely re-enforced, but double thickness and extremely elastic—will withstand the ravages of the garter clasp.

The new

“WYDE TOP”

provide extra width and elasticity at the top with out superflous width all over.

The new

“DOUBLEX”

reveals vast improvement in Fabric—wear resisting to a degree hitherto unknown.

STREET DIRECTORY OF THE BOROUGH OF MANHATTAN.

For Street Directory of the Borough of The Bronx, see page 84.

HINTS FOR USING THE STREET DIRECTORY.

All numbered East side streets from E. 8th to E. 142d begin at 5th av. and run to East River. Beginning with E. 11th st. one hundred numbers are used on each block between the avenues (Madison and Lexington avenues not considered). The location of any given number is thus definitely indicated.

A reference to the diagram below shows that No. 135 is east of 4th av., the first numbered avenue east of 5th av., 435 is east of 1st av., the fourth avenue east of 5th av., etc.

All numbered West side streets from W. 10th to W. 144th begin at 5th av. (except those from 59th to 109th, which begin at Central Park W.) and run to North or Hudson river, the same principle of numbering being used.

All odd numbers are on the north side of the street, the even numbers on the south side.

STREET DIRECTORY OF THE BOROUGH OF THE BRONX.

All numbered crosstown streets west of Broadway are designated as *West*, all those east of Broadway as *East*. Willis av., Melrose av. and Webster av., being practically one street from Harlem River to the northerly city line, are numbered continuously, beginning at Willis av. and Harlem River.

To secure uniformity in numbering, all avenues running north and south are given the same number at the cross streets nearest their southern terminus as that on Willis, Melrose and Webster avenues at intersection of same streets, and all cross streets are given a specific number at their intersection with Willis, Melrose and Webster avenues, increasing toward the east and decreasing toward the west.
